Report of Board of Health

During the past year we have had four cases of scarlet fever in our town. The patients were isolated and the houses quarantined. One death resulted from this disease.

Two cases are still in quarantine at Bowkerville, but we do not apprehend any further spread of the trouble.

The houses and contents are fumigated with formaldehyde before the quarantine is removed, and all precautions taken that others may not contract the disease.

Mumps has been prevalent during the winter.

Special attention is called to the public statute which requires all children attending schools to be vaccinated. This law will be enforced during the coming year.

The general sanitary conditon of the town is good.

ARTHUR T. BYAM,
GEO. S. EMERSON,
Board of Health.

During the month of November last we established a branch library at Fitzwilliam Depot Village in charge of Miss Lucy C. Bigelow, a very competent and efficient assistant, for the benefit of the citizens and the boys and girls of the Depot Village, all of whom are much pleased with the arrangement, and which we trust will result in much good. Three hundred and fifty books have been taken and read from this branch library since November 8, 1913. We would again call the attention of our citizens to the provisions of Chap. 8 of the Public Statutes of New Hampshire, also to Chap. 118 of the Laws of 1895 in relation to the establishment and maintenance of free public libraries. We gratefully acknowledge the receipt of various reports and public documents from the State and general government.

We have also during the past year received the first installment of 215 books from the library of the late Albert M. Knight of Waltham, Mass., who by his last will and testament bequeathed all his books to the public library in the town of Fitzwilliam in memory of his grandfather, Jonas Knight, an early settler of this town, which is a very choice and valuable collection of scientific, historical and miscellaneous books.

THE LIBRARY OF SCHOOL DISTRICT NO. 1

During the past year we received the following communication from the Bent Library Association of former District No. 1 in Fitzwilliam:

"We, the undersigned, being a majority of the original owners, shareholders, patrons, and heirs of deceased members of the Bent Library Association of School District No. 1 in

Fitzwilliam, N. H., do hereby consent and agree to donate and turn over to the town of Fitzwilliam all the books, pamphlets, records, maps and cases, now in said Bent Library, the same to be placed in the new Town Library Building in said Fitzwilliam, to be under the management and control of the trustees of the Fitzwilliam Town Library."

On the 19th day of June, 1913, two of the supervisors went to the summer cottage of Chester H. Phillips in former school district No. 1, where we met Mr. Phillips and found a good book-case containing 273 library books in very good order and condition, and we removed to the town library 144 volumes and placed them on the shelves of the new Library Building. The remainder of the books and the case still remain in said cottage ready to be removed to the town library at any time when convenient.

This is a valuable addition to our public library, and we hereby tender the thanks of the officers of our town library, and citizens of the town, to the donors for this generous gift.

The following facts respecting this library have been kindly furnished by Mr. H. A. Shirley a native and former resident of the district now a professor of music in Salem Academy and College of North Carolina:

Mr. Newell Bent, the ninth and youngest child of Samuel and Mary (Hunt) Bent, was born in Fitzwilliam, N. H., Dec. 14, 1801, and died unmarried, May 14, 1857.

He was well educated for his time, teaching school in Royalston and other towns and then became a phrenologist, locating in Lowell, Mass., where he spent his winters driving through the country, summers with a stock of jewelry, woodenware, etc., for sale. He is remembered as being a very polite man, and his penmanship was so good that he was often asked to write the family records in Bibles, and many were the requests for inscriptions in autograph albums.

In his will we find a bequest of $100.00 for the poor of his native town of Fitzwilliam, to be expended at the discretion of the selectmen. Also $100.00 to school district No. 1 to establish a library for the benefit of said district.

At a meeting of the voters of the district on March 20, 1858, the bequest was accepted and $25.00 was raised to buy a book-case and defray the expenses of starting the library. A committee of three, George Damon, John N. Richardson and Winslow Phillips, were chosen to select and purchase books, and they were requested to confer with Arunah A. Bent, Mr. Newell Bent's executor, and buy such books as had been suggested by him, which accounts for the presence of the complete works of Fowler and Wells on phrenology.

On August 28, 1858, the purchasing committee reported that they had visited several public and private libraries in order to inform themselves as to what books other associations had found by experience to be the most useful and interesting. They finally made a list of books which they considered best adapted to their wants and they spoke of valuable sugges-

tions from Mr. Asher Hall of New York, a former resident of the district.

We notice in the expense account, J. N. Richardson's bill for fare one way to Boston for the books, one day's time and expenses, the freight on books from Boston, postage, stationery, etc.—$4.25.

On August 31, 1858, at an adjourned meeting, Samuel S. Willard, Levi G. Smith and Stillman Taylor presented a constitution and by-laws, which were adopted, and the following officers were chosen:

President, William Bent; Vice-President, Moses Chaplin, Jr.; Secretary, J. N. Richardson; Treasurer, Charles Damon; Directors, William H. Shirley, Winslow Phillips and George Damon; Librarian, Elisha Chaplin.

Elisha Chaplin served as librarian until he moved to Fitzwilliam village in 1882, when Winslow Phillips was chosen as his successor. From Mr. Chaplin's reports we find that the first book was taken out Sept. 22, 1858. In his report of March 1, 1860, he stated that there had been 304 books taken from the library during the past year and that the passion for novels and light reading far exceeded that for history and more standard works. However, in the report of March 1, 1861, he found that the passion for history and more standard works exceeded that of novels and light reading. On March 1, 1865, Mr. Chaplin said that only 37 books had been taken from the library, as nearly everyone had read the books and new ones were needed. A paper was circulated asking for money with which to buy new books, and $14.00 was raised. Twelve new volumes were added and some books offered by Mr. Camillus Hall were accepted, making 164 volumes in all.

In 1868 the books belonging to the Sunday-School library of district No. 1 were offered and accepted.

The last meeting of the Bent Library Association was held in 1885 when Winslow Phillips, the librarian, reported that there had been 118 books taken out during the past year.

The library had served a good purpose, the books were

well chosen and the influence was excellent, but the older people had read the books, the younger people were moving away and in the last years there had been no interest, it being kept in a house which was only occupied during the summer months.

In 1912 a petition was circulated by Walter H. Hall of Winchendon, Mass., formerly of the district, which was signed by 40 present and former residents, asking that the volumes be moved to the Fitzwilliam Town Library, lately placed in the Bradley building, and this was done in June, 1913. After 55 years of service in the district, everyone felt that it should be placed where it would be properly cared for.

During the month of January, 1913, the trustees caused to be finished off a much needed storage room, 20×16 feet, in the ell of the Library Building in the rear of the stack room, from the surplus in the treasury of the Library Association, the work being done by Mr. Guy W. Tenney in a very complete and satisfactory manner.

And it is considered advisable that a steam radiator and electric lights be installed in the above described storage room at an early date.

Respectfully submitted,

ANNIE L. COLBY, Librarian.

JOHN M. PARKER,
AMOS J. BLAKE, Supervisors.

Report of

Superintendent of Schools

To the School Board of Fitzwilliam:—

I herewith submit my second annual report, the fourteenth annual report of the superintendent of schools.

The following table is to show the membership by schools and by grades and to afford a comparison with a like table of one year ago:

Schools	Grades I	II	III	IV	V	VI	VII	VIII	Totals	Increase or decrease
Number 1.	2		5	3	4		2	1	17	— 1
Number 5, Pr.	9	15	10	6					40	— 6
Number 5, Gr.					10	8	3	10	31	+ 4
Columbian Pr.	8	6	11	8					33	—16
Columbian Gr.					16	8	3	3	30	+ 7
Number 10	3	3	5		4			6	21	—
Totals	22	24	31	17	34	16	8	20	172	—12

The above table will show that the overcrowded condition which prevailed in the Depot and Village primary rooms no longer exists.

The handicaps which were present last year in handling so many in the primary rooms has been done away with by raising the age limit for admission and by the temporary or permanent removal of some of the families. In fact we now have about the right number to do good work in those rooms.

During the rather severe winter which we have experienced, difficulty was found in keeping the buildings at the Depot and at the Village warm enough at all times. This resulted in a loss of school time and ought to be corrected

before another winter. Whether the original apparatus was unsuited or inadequate, or whether the fuel was not suitable, I cannot say; at any rate the whole matter should be gone over at an early date by a competent judge or judges, and speedily corrected.

MILEAGE

A rather important problem will present itself in the near future, namely the practice of school boards in this part of the State in paying mileage to children when they walk to school. Personally, I should say that it is a bad practice, and in connection with this I quote from an Institute Circular issued by State Supt. H. C. Morrison in 1914:

"Paying children for getting to school is something which in principle ought to be avoided wherever possible. Children ought to be brought up to understand that free education itself is a boon denied to most earlier generations, and they should not be encouraged to feel that they are doing anybody but themselves a service in going to school. Of course it sometimes happens that if the school board will make a small allowance, isolated children can get to school with a team where it would otherwise be impossible. **Under no circumstances** should the children be paid for walking to school. This practice is undoubtedly illegal and the school board which tolerates it is undoubtedly liable for misappropriation of public funds. . . ."

The practice ended in Fitzwilliam with the close of the fall term.

It certainly sounds reasonable to suppose that a child who can walk to school for money can walk the same distance without being paid for it. Under Mr. Morrison's decision there is no other way than to stop the practise.

Closely related to the above is the question of transportation which keeps coming up more and more frequently and causes a large expenditure of money in New Hampshire towns. If this be looked at from the legal standpoint, some things are made perfectly clear by recent decisions of the New Hampshire Supreme Court, namely:—

1st. The school board may require children to walk to school when the distance which they would be required to walk is not an unreasonable one. "Reasonableness varies with the time of year, the age, sex and physical condition of the child, the character of the road, and a variety of other local conditions."

2nd. If a child or children live at such a distance from a school-house that it would be unreasonable to require them to walk, the school board must find some way to provide them with proper school facilities for at least part of the year.

This, I say, is the legal status of the transportation problem. In my own mind, I would say that the settlement of any transportation problem arising should be made with an eye to the best town interests, the humane treatment of the children, and the lowest possible cash expenditure. The school boards are the judges of what constitutes a reasonable distance.

Last June a spelling match was held at Marlboro, five towns and one city participating. It will give the citizens of Fitzwilliam pardonable pleasure to know that their town was a very close second to Keene in the total score, and above the other four towns. In a more recent contest held at East Jaffrey, Feb. 7, 1914, between the four towns of the supervisory district, Miss Dorothy Fairbanks won the highest individual honors in the oral spelling and the Fitzwilliam town team stood second. These two matches constitute an exceptionally good showing, I consider, for the town, if one considers the number of scholars the town has to select from.

GIFTS FOR SCHOOLS

Many times during the year the teachers and superintendent desire money to use for purposes other than those for which regular appropriation has been made. In order that the friends of the public schools may give money wisely, I list some of the things that the schools would be glad to receive:

1. Money to pay for correction of defects in eyesight

and hearing of poorer children.

2. A school library, 25 to 50 books.

3. A well decorated schoolroom interior with suitable pictures.

4. Prizes for inter-town and inter-school contests.

5. A Victrola.

6. Use of pieces of land for boys' corn and potato clubs.

7. Playground apparatus.

MEDICAL INSPECTION

An act of the last legislature provides for medical inspection of school children by competent physicians. The physician or physicians must examine every pupil, as well as the sanitation of the buildings, and report to the school board; must test each pupil's eyesight and hearing and test for other evidences of ill-health, and must decide if a pupil shows indications of a contagious disease, and in case of disease send him home. The adoption of the provisions of this act and the raising of money for carrying it out are left optional with the voters of the town. It seems to me a wise law and one which ought to be taken advantage of. Of course the teachers have tested the children physically to some extent, but no one will contend that a layman can do the work as well and as certain as a registered physician. I have no doubt that there are quite a number of cases of defective eyesight and defective hearing causing the children to repeat their courses, which might be corrected if the act is adopted.

During the year a new method of handwriting has been introduced into the Fitzwilliam schools. This has been in use in the Boston schools a number of years and has proved a good system. It is already beginning to show good results among some of the older pupils.

On the physical side, the flagpoles have all been put in good condition, the stone walk at the Columbian School is nearly completed, more adjustable seats have been installed, and a rather liberal supply of reading books has been added to the schools.

Permit me to thank those who have been helpful to me in conducting the administration of the schools,—teachers, scholars, parents and School Board.

Respectfully submitted,

WM. L. MacDONALD.

REPORT OF THE SUPERVISOR OF DRAWING

To the Superintendent of Schools:—

I herewith submit my report as supervisor of drawing in the Fitzwilliam schools:

The lessons given in your schools are as follows, adapted to the grade:

1. Study of the carrot foliage.
2. Drawing of free-hand circles.
3. Autumn leaves.
4. Color scales—red, yellow, blue.
5. Pose drawing.
6. (Primary.) Cutting mats for weaving.
   (Upper.) Face, eye level, ellipse of circle.
7. Turkey for cover of booklet.
8. Painting of Christmas cards.
9. Cutting and making a Christmas poster.

The lessons were intended to develop skill in handling brush and pencil and to distinguish color and form.

Respectfully submitted,

ALICE M. SMITH.
